

 zerocare

Antolini[®]
ITALY

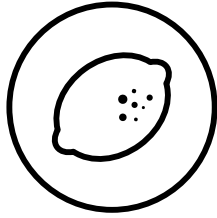

Antolini is proud to introduce the next revolution in natural stone: **Azerocare**. As a “bulletproof” treatment for natural stone, **Azerocare** is a game changer in the industry. Developed by Antolini R&D team and protected by international patent, **Azerocare** is the only protective treatment available in the natural stone industry. **Azerocare** treatment is recommended for kitchens and bathrooms.

NO WOMAN!

Azerocare is a permanent treatment granting polished marbles, onyxes and soft quartzites full protection against etching and staining caused by contact with elements such as:

Lemon

Red Wine

Coffee

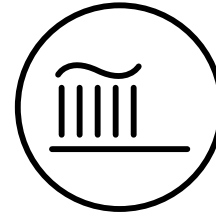

Tomato Juice

Vinegar

Hand Cream

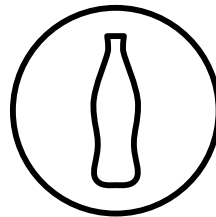

Toothpaste

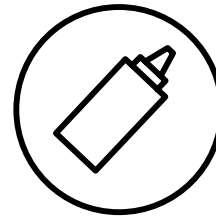

Soap Detergents

Fruit Juices

Soda

Mustard

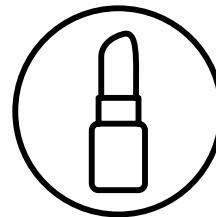

Ketchup

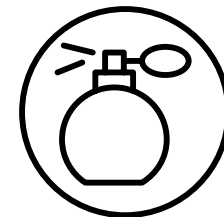

Oil

Shampoo

Lipstick

Eau de Toilette

White Super (marble)

Corteccia (soft quartzite)

Brèche de Vendôme (marble)

Bianco Lasa | Covelano (marble)

Bronze Amani (marble)

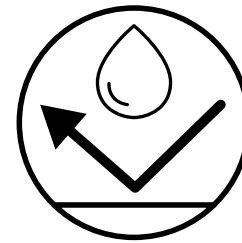

Calcite Azul (marble)

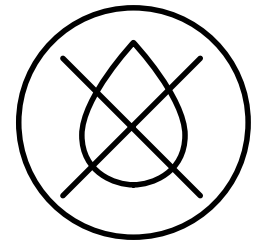

Irish Green (marble)

Azerocare is the ultimate treatment which grants a WATER-REPELLENT and OIL-REPELLENT protection against staining and etching caused by oil, fat and greasy elements.

WATER-REPELLENT

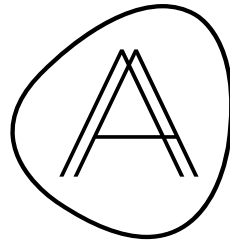

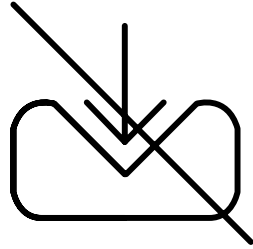

OIL-REPELLENT

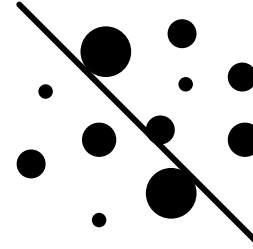

APPLICATION

Azerocare is applied onto the surface of the polished slabs directly at Antolini headquarters' factory with state of the art machinery and new revolutionary technology. The application process is ECO-FRIENDLY: it does not produce atmospheric emissions or production scraps.

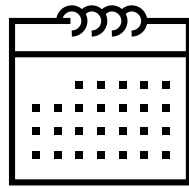

No Etching

No Staining

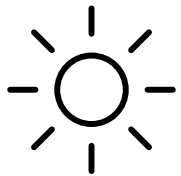

Permanent treatment

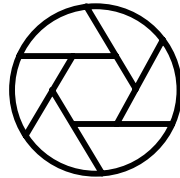

Bacteriostatic treatment

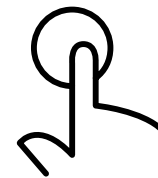

ECO friendly

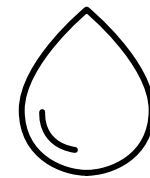

No reaction to UV rays

No colour alteration

No touch or feel alteration

Easy to clean

PROPERTIES

Azerocare is a permanent treatment, provided a maintenance program is followed. However, the product does not protect the surface against scratching and scraping. **Azerocare** is a BACTERIOSTATIC treatment affecting the surface of the slab. Its formula is specific for each kind of natural stone typology.

The only protective treatment for natural stone of its kind, **Azerocare** provides protection against STAINING and ETCHING without altering the color, touch, or feel of natural stone. **Azerocare** does not react to UV rays. Surfaces treated with **Azerocare** remain EASY TO CLEAN – simply use water, neutral soap, and a non-abrasive cloth to wipe down surfaces without sacrificing **Azerocare**'s protection.
